A Word for Our Furniture Stock.

—We can afford to repeat what others say about us and not in any way boast. It's what others think that best stimulates ambition, after all. We are told again and again by out-of-town folks that no store in their community shows any such an exhaustive stock of Furniture as we do right here. People from the largest cities in the Union have been noticeably the ones to comment. We knew it—but that does us little good unless you know it. We have counted patterns (only the samples on the floors) in different lines of goods and don't see how they could be enlarged to their benefit. In China Cases alone there are 95 different samples on the floors—in Morris Chairs, nearly 100—and these two stocks are notable ones where big lines are unusual. It all makes buying easy—pleasurable. It makes pricing low—for big buying always does that.

Corner Chairs.

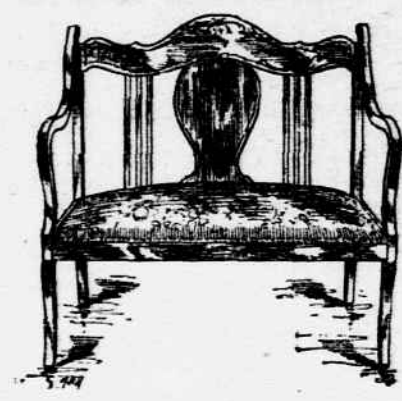

—We have been thinking of Christmas for some time past—preparing—buying—getting ready to invite you to see a collection of the smaller pieces of Furniture (suitable for gifts) that reached the limit of possibilities for such goods. Ready now. We fire the first gun in making this Corner Chair offer. It serves two purposes—invites you here—tells you how little you need spend for good furniture.

The Chair is well made, well designed—with elaborately carved mahogany-finish frame, and spring seat, upholstered in silk damasks. We place its value at \$8. Its price—

A Sale of Odd Divans.

—The Side Chairs and the Arm Chairs are gone—sold. The Divans play the part of remnants. Desirable remnants, too. Fresh, well designed, well constructed stock—but occupying room we could use to better advantage.

The Divan like the illustration, with crested mahogany panel back, filled with mother-of-pearl, holly and amaranth, full spring seat upholstered in silk damasks or damask. The closing price—

REVISION OF CREED

Work of Committee Representing the Presbyterian Church.

SECTION TO MEET NEXT WEDNESDAY

Special Attention to Be Given to Preparation of New Statement.

THE CONFESSION OF FAITH

An event of considerable moment will be the coming together in this city next month of the committee appointed by the general assembly of the Presbyterian Church to consider the revision of the Westminster confession of faith, and the preparation of a new statement. Owing to the importance of the duty that has been laid upon this body of men, as well as their representative character in the Presbyterian denomination and their prominence in the community where they live, their sessions are likely to create an interest that will extend beyond denominational lines. Since the meeting last summer of the general assembly which brought this committee into existence, two sessions have been held, one in New York and another September last in Saratoga.

Acting upon the instructions received from the general assembly to report to that body at its meeting next year upon those phases which the question of revision has assumed, the committee of twenty-one was divided into three sections. These subcommittees, or sections, of seven members each, have as chairmen Rev. Dr. Herick Johnson of Chicago, Rev. Dr. Charles A. Dickey of Philadelphia, and Rev. Dr. S. J. Nicolls of St. Louis.

One section is considering a plan for the elimination from the confession of the objectionable matter. Another takes up the subject of preparing statements to be inserted in the confession, and the third, the love of God; concerning the Holy Spirit and concerning missions, while to a third section is assigned the duty of preparing a new statement, brief and simple, for popular use.

Section to Meet Wednesday Next. When the committee adjourned last September, after its session in Saratoga, it was to meet in this city December 4. However, one week before that date, next Wednesday, the 27th instant, one of the sections will begin its meetings. It will assemble, as will be the case with the general committee, in the chapel of the Church of the Covenant, Connecticut avenue and 18th street. By a good many it is considered that the preparation of a new statement of faith is the most difficult problem before the committee, and as that part of the work has been assigned to the section that will begin its sessions here next Wednesday it is evidently so regarded by the members. At any rate, they are to have an additional week for the preparation of a report which will be submitted to the general committee. It is probable that a large portion of the time of the sessions of the whole committee, which begins the 4th of December, and will last ten days or two weeks, will be devoted to the consideration of the proposed new statement.

At the head of the section which will begin its sessions here next Wednesday is Rev. Dr. Herick Johnson of Chicago, and associated with him are Rev. John De Witt, D.D., Princeton, N. J.; Rev. George B. Stewart, D.D., Auburn, N. Y.; Rev. H. C. Minton, D.D., Philadelphia; Rev. S. P. Sprecher, D.D., Cleveland, Ohio; Justice Van Dyke, D.D., Princeton, N. J.; J. Ross Stevenson, D.D., Chicago, Ill.; D. M. Moffat, D.D., Fort Wayne, Ind.; Rev. W. C. Mick, D.D., Cedar Rapids, Iowa; Justice John M. Harlan and John W. Foster, U. S. Supreme Court Justices, respectively, St. Paul, Minn.; E. W. C. Humphrey, Louisville, Ky.; Dr. Wm. R. Crabbe, Pittsburgh, Pa.; John E. Parsons, New York City; Ellis A. Felt, Detroit, Mich.; Dr. T. Thompson, Minneapolis, Minn., and John DeWitt, D.D., Princeton, N. J.

The clerk of the general assembly, W. H. Roberts, D.D., will act as secretary of the committee. Rev. Dr. Minton is the moderator of the assembly, and as such became chairman of the committee. The revision committee of fifteen, appointed by that assembly, as will be recalled, that committee reached no definite conclusion, except that it made plain, from the reports received, through a majority of the presbyteries, and the action of the latter will be reported to the following assembly. In the event that a change is decided upon by the revision committee on revision it is estimated that some four years will elapse before it will be possible to make a change in the law of the church.

During the stay of the revision committee in this city the members, individually and collectively, will be the recipients of much social attention. The Men's Society of the Church of the Covenant will give a dinner in honor of the committee, and the members will be entertained at dinner and at a reception by Mr. John W. Foster, Rev. Dr. Wallace Radcliffe intends to have the visitors as his guests at a luncheon, and other hospitalities are contemplated.

"McKinley Carnation" Contest. A dispatch from Kansas City last night says: The "McKinley carnation" contest was the attraction to day at the flower show at Convention Hall, and the prize of \$100 offered for the most perfect specimen of the pink carnation, the favorite flower of the late President McKinley, was awarded to E. H. Graves of Richmond, Ind. The bloom, with much ceremony, was then formally named "The McKinley." Concerning the winning carnation, Mr. Graves said: "It is a hybrid. It has the blood of the Painted Lady. The color is brighter than that of the famous pink."

The hanging up of this particular prize prompted some of the most noted carnation growers in the country to enter specimens of their choicest blooms, and the result was a rare display. Among the competitors were Mr. Webb of Baltimore and Lonsdale of Philadelphia.

A NEW INDIAN POLICY

COMMISSIONER JONES MAKES SOME PERTINENT SUGGESTIONS.

Would Throw "Poor Lo" Upon His Own Resources—Annual Report Submitted.

In his annual report to the Secretary of the Interior, made public today, William A. Jones, commissioner of Indian affairs, introduces a policy which, he contends, will practically settle the entire Indian question. His plan is to give the Indian opportunity for self-support; the same protection of his person and property as is given others; throw him upon his own resources; an enforced realization of the dignity of labor and importance of building and maintenance of home.

"To begin at the beginning," Commissioner Jones says, "it is freely admitted that education is essential. But it must be remembered that there is a vital difference between white and Indian education. When a white youth goes away to school or college his moral character and habits are already formed and well defined. In his home, at his mother's knee, from his earliest moments he has imbibed those elements of civilization which, developing as he grows up, distinguish him from the savage. He goes to school not to acquire a moral character, but to prepare himself for some business or profession by which he can make his way in after life.

"With the Indian youth it is quite different. Born a savage and raised in an atmosphere of superstition and ignorance, he lacks at the outset those advantages which are inherited by his white brother and enjoyed from the cradle. His moral character has yet to be formed. If he is to rise from his low estate the germs of a nobler existence must be implanted in him and cultivated. He must be taught to lay aside his savage customs like a garment and take upon himself the habits of civilized life. In a word, the primary object of a white school is to educate the mind; the primary essential of Indian education is to enlighten the soul. Under our system of government the latter is not the function of the state.

Opportunity for Self-Support. "What, then, is the function of the state? Briefly this: To see that the Indian has the opportunity for self-support, and that he is afforded the same protection of his person and property as is given to others. That being done, he should be thrown entirely upon his own resources to become a useful member of the community in which he lives, or not, according as he exerts himself or fails to make an effort. He should be located where the conditions are such that by the exercise of ordinary industry and prudence he can support himself and family. It is to be made a rule that he should be located where the conditions are such that by the exercise of ordinary industry and prudence he can support himself and family. It is to be made a rule that he should be located where the conditions are such that by the exercise of ordinary industry and prudence he can support himself and family.

He says that so long as the Indians are wards of the general government, day schools are desirable, but until there is an improvement in domestic life it is futile to talk of higher education. He speaks of the location on arid reservations where there is want and suffering, and says that under these circumstances the ration system with its evils must continue, and then adds: "But whatever the condition of the Indian may be, he should be removed from a state of dependence to one of independence. And the only way to take away those things that encourage him to lead an idle life, and after giving him a fair start, leave him to take care of himself. To that it must come in the end, and the sooner steps are taken to bring it about the better. That there will be many failures and much suffering is inevitable the very nature of things, for it is only by sacrifice and suffering that the heights of civilization are reached."

HYATTSVILLE AND VICINITY.

Meeting of Manufacturing Company—General and Personal.

Special Correspondence of The Evening Star. HYATTSVILLE, Md., November 23, 1901. A meeting of the directors and stockholders of the Hyattsville Manufacturing Company was held last evening at the offices of Rogers & Farden, with Dr. Charles A.
